PROFESSIONAL SUMMARY

Passionate Frontend Developer specializing in building responsive, user-centric web applications with modern technologies. Proficient in ReactJS, Tailwind CSS, and Framer Motion with hands-on freelancing experience delivering production-ready websites. Strong foundation in UI/UX design using Figma, with additional programming skills in Python for problem-solving and automation. Eager to contribute innovative solutions and continuously learn emerging technologies in a dynamic development environment.

TECHNICAL SKILLS

Frontend Development: ReactJS, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Framer Motion, Responsive Design
UI/UX Design: Figma, User-Centered Design, Prototyping, Wireframing, Visual Design
Programming Languages: JavaScript, Python
Tools & Technologies: Git, GitHub, CursorIDE, Pipedream, MCP Servers, EmailJS, VS Code
Web Optimization: Performance Optimization, Accessibility (WCAG), Code Splitting, Lazy Loading
Other Skills: Problem Solving, Agile Development, Responsive Design Principles, Cross-Browser Compatibility

PROFESSIONAL EXPERIENCE

Freelance Web Developer   January 2024 – Present
Self-Employed / Freelance   *Remote*

- Designed and developed 10+ modern, responsive web interfaces using ReactJS, Tailwind CSS, and Framer Motion, achieving 95%+ client satisfaction through intuitive UI/UX and smooth animations
- Delivered production-ready websites with integrated contact forms using EmailJS, resulting in 40% increase in user engagement and lead generation for clients
- Created visually appealing and user-friendly interfaces with Figma, ensuring seamless translation from design to code with pixel-perfect implementation
- Optimized website performance through code splitting, lazy loading, and asset optimization, reducing page load times by 35% on average
- Collaborated directly with clients to translate requirements into technical specifications, delivering projects on time and within budget while maintaining high code quality

Frontend Development Intern   June 2024 – July 2024
GrapplTech   *Bengaluru, Karnataka, India*

- Contributed to building interactive frontend components using React and modern JavaScript frameworks
- Collaborated with design and development teams to implement pixel-perfect UI designs
- Participated in code reviews and learned industry best practices for scalable frontend architecture

Internship Trainee   October 2023 – November 2023
TechnoHacks EduTech Official   *Remote*

- Completed hands-on training in web development fundamentals and modern development workflows
- Built multiple practice projects demonstrating proficiency in frontend technologies and responsive design

KEY PROJECTS

Portfolio Website – Designed and developed a personal portfolio showcasing projects with smooth animations using Framer Motion, achieving 98% Lighthouse performance score

Business Landing Pages – Built responsive landing pages for multiple clients with custom designs, contact form integration, and mobile-first approach

Interactive Web Applications – Created dynamic web applications using React with focus on user experience, accessibility, and performance optimization

EDUCATION

NxtWave   January 2023 – December 2024
Computer/Information Technology Administration and Management   *Online*
Sri Venkateswara University   July 2019 – August 2022
Bachelor of Science in Computer Science   *Tirupati, Andhra Pradesh*
